

I DO NOT WANT any business calling me unless I have specifically requested them to do so or unless it's an attempt to protect my account. If I'm currently doing business with a company, I do not want them to call and try to sell me some other service. I already receive enough "offers" from my bank/mortgage company/credit cards, etc... that I don't need a phone call doing the same thing. If I want or NEED another service, I'll call them and ask for it. DO NOT allow this to change. They SHOULD NOT be allowed to contact me at any time for reasons such as selling additional services to me.
